

# Situation and Design Brief

## Designing your GCSE sheets!

What to include:

- Include your name and the project name.
- Leave a title space for your sheet as it will change on each sheet.
- The sheet must be in black and white as it will be photocopied.
- Include some icons relating to your project.
- Do not use too much space as you will need it for your sheets content.
- Include a border 1cm around the outside of the sheet.
- Look after your master sheet as your teacher will need to use it to photocopy more.
